Every month we will gather as many drink specials as we can find from establishments near campus. We will then print a few of the specials we believe to be the most interesting. Check here every issue to get the most out of your drinking dollar.

The establishments listed do have the right to change these specials at any time, so we are unable to guarantee that these prices will remain valid.

Let the West Lafayette Common Council know:

By Kris Knigga

I was so disappointed in hearing the news that the West Lafayette Common Council passed the highly controversial smoking ban, Ordinance No. 8-06, that I did something I absolutely hate; I started programming. In about seven hours, I wrote a small script that would allow the citizens of West Lafayette and of Purdue to let the West Lafayette Common Council know how much they let us down. This little script sends a carefully crafted email to all of the members of the council, as well as Mayor Jan Mills.

The letter reads as follows:

Dear (recipient's name),

As a member of the West Lafayette Community, I would like you to know that I do not support the recently passed smoking ban.

I believe that dining in a restaurant or visiting a bar is not a fundamental right, but a luxury. People in our community can choose where they will dine or with whom they want to do business. If a non-smoker

decides they don't wish to patronize an establishment that allows smoking, they are free to do so. This makes the smoking ban solely a matter of convenience, not of necessity.

In the same way, no employee is forced to work at an establishment that allows smoking. As Americans, we have the freedom to choose for whom we will work and can choose to work in a smoke-free environment if we do not appreciate second-hand smoke. In fact, Tippecanoe County's largest employer, Purdue University, chooses to be smoke free, along with many other businesses. So again, this is a matter of convenience, not of necessity.

Freedom of Association is an inherent right that Americans hold, guaranteed to us by the Bill of Rights. To deny business owners and smokers the choice of participating in a legal activity goes against the very spirit of our nation. We must uphold the principle that it is never acceptable to deny rights to one group of people simply for the convenience of another group.

Furthermore, I believe that the economic harm caused by this ban will outweigh any good that might come of it. I believe

that this ban will result in restaurant and bar business being shifted to Lafayette, causing a loss of business in our city. West Lafayette already has smoke-free establishments for those who choose to visit them. By forcing all restaurants and bars to be smoke-free you take away an advantage that smoke-free establishments hold with non-smokers.

For all of these reasons and more, I ask you to do what you can to repeal the smoking ban before it can take effect.

Thank you for your consideration,
(sender's name)
(sender's street address)
West Lafayette, IN

At the time of writing, 85 individual people had placed their name at the bottom of this letter and sent it off. But that's not enough. We need more people to let the Common Council know that what they are doing is wrong, and is an attack on basic rights. If you feel as I do, please take the five minutes it takes to fill out this form and send it. The Internet address for this can be found at the end of this column.

Let your friends know how you feel, too. Many people see this as a great way to ensure public health, but fail to recognize the impact it will have in the area of limiting rights.

I would like conclude with a quote from C. S. Lewis, "Of all tyrannies, a tyranny exercised for the good of its victims may be the most oppressive. It may be better to live under robber barons than under omnipotent moral busybodies. The robber baron's cruelty may sometimes sleep, his cupidity may at some point be satiated; but those who torment us for our own good will torment us without end, for they do so with the approval of their own conscience."
